THE PROJECT

New Build 3 Storey University Technical College including an Engineering facility. The college is the first of its kind in the North East and specialises in advanced manufacturing and engineering offering training and educational skills to 14-19 year old students for entry into employment in these specific sectors.

The college is equipped with various types of teaching spaces, laboratories, engineering work shop, dining facility, sports hall, lecture theatre and external MUGA. The building is also provided with renewable technologies.
