THE PROJECT

Leybourne Urwin were employed through a competitive tendering process for the mechanical services to the new sports facility for the Royal Grammar School in Newcastle.

The new facility included a 25m swimming pool, sports/multi use hall, weights room, fitness & weights studios, dance room together with changing and administrative areas. Various elements of mechanical services were used including Underfloor Heating, ground source heat pumps, natural ventilation to the sports hall and mechanical ventilation systems for all other areas.
