MECHANICAL & ELECTRICAL  
CONSULTING ENGINEERS

## THE PROJECT

Leybourne Urwin Ltd were appointed to carry out the Mechanical & Electrical services installation for the refurbishment of this Heritage Grade II Listed Art Deco Theatre which was originally constructed in 1935. The works have provided the venue with a 3000-capacity set to attract world class performers. The key aspect was to preserve its Art Deco heritage and historical mouldings. There were also two extensions constructed the first being a new annex block encompassing the dressing rooms facility for performing artists and the second being the adjoining 153 Building which will provide box office, café / bistro and including bar facilities.
