

NORTH TYNESIDE DECARBONISATION PROGRAMME

VALUE: £3.4 M | MECHANICAL & ELECTRICAL SERVICES

THE CLIENT

North Tyneside Council

THE PARTNERS

THE PROJECT

The works primarily comprised of the installation of multiple Air Source Heat Pump's at each of the leisure centres to achieve the required government Carbon Reductions for North Tyneside Council including the construction of new external concrete plant decks, piling and all associated modification of the existing mechanical, electrical and pool water filtration installations to facilitate the installation and interface with the existing systems including the BMS. In addition, the existing electrical infrastructure has been up graded to provide larger sub stations at the Waves & Lakeside and new sub stations at Tynemouth & Hadrian working in partnership with Northern Power Group.
